ADDENDUM NO. 1 BID SPECS

SPECIFICATIONS - WOODEN CHAIRS

1.0 GENERAL

1.1 DESCRIPTION

- A. Wooden chairs are to be coordinated with Attorney Tables, Pew Benches and Jury Seating. Wooden Chairs, Pew Benches, Attorney Tables and Jury Seating must be provided by a single manufacturer, coordinating consistent wood, fabric, and finish from the same production run.

1.2 QUALITY ASSURANCE

- A. Manufacturer Qualification: Manufacturer shall have been regularly engaged in the manufacture of similar items for a minimum of twenty (20) years and shall have a history of successful production acceptable to the architect.

1.3 SUBMITTALS

- A. The manufacturer or manufacturer's rep shall submit product data, shop drawings, fabric samples, and stain/finish samples upon request, prior to fabrication of chairs.
- B. Product manufacturer must provide current Contractor License with the State of Mississippi.
- C. The manufacturer or manufacturer's rep shall field measure project and generate as-built, computer-generated floor plan layouts for final approval prior to fabrication.

1.4 DELIVERY, STORAGE, AND HANDLING

- A. The manufacturer shall be responsible for coordinating timely delivery with owner/contractor to prevent any storage or handling of product by owner/contractor prior to assembly and installation.

2.0 PRODUCTS

2.1 MATERIALS & CONSTRUCTION

- A. Chair Back: 5-ply construction, with a core of ½" plywood, two plys crossband of 1/8" hardboard (64.2 lb density), with one ply Solid Maple on the front and rear side of the chair. The back cap shall be 5/4 premium Solid Maple. The cap shall be attached using a hydraulic press using assembly glue and a press fit joint and shall have an under-cap support molding for added strength. Seat back shall be 20" wide.
- B. Chair Seat: Solid Maple construction, ergonomically contoured to match the contour of the pew benches. Seat width shall be 20" wide, non-stacking.
- C. Chair Frame and Chair Arms: Chair frame and arms shall be constructed using only Solid Maple components. Leg to frame supports shall use mortise/tenon joint construction. Leg to seat supports shall use dovetail joint connections.
- D. Finish: Finish must be a 2K polyurethane finish, resistant to hand sanitizers. Stain, sealer, and topcoat to be a formaldehyde free formulation. Stain color shall be matched to owner's sample. Stain shall be applied using a manually operated spray system, then brushed or hand wiped to ensure thorough penetration, and allowed to fully air dry. A two-component polyurethane sealer shall then be applied using a manually operated spray system and oven cured. The final topcoat shall be a two-component, polyurethane applied using a manually operated spray system, and oven cured. The topcoat shall be UV stable to prevent yellowing and shall be specially formulated to provide excellent scratch resistance and protection from household chemicals.

3.0 EXECUTION

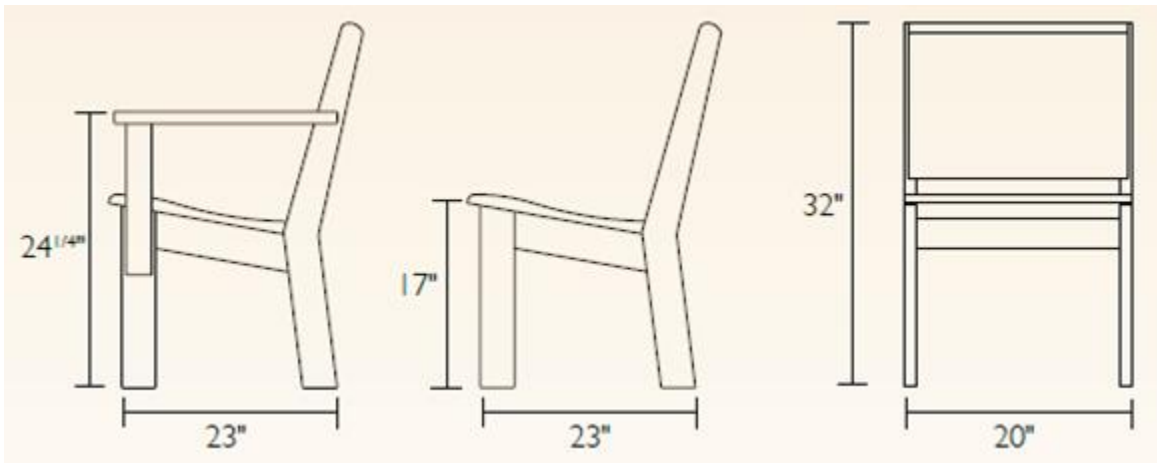

3.1 INSTALLATION

- A. The manufacturer shall be responsible for all delivery, unloading, assembly, and complete installation of chairs, using factory trained regional installation crews. Moldings shall be attached with concealed pins to cover exposed screw heads.

3.2 WARRANTY

- A. The manufacturer shall provide a written twenty-five (25) year warranty (15 years on upholstery) against defects in materials and workmanship.
